Subject: Provisional Patent for
vessel/1611681/IV/sf

Dear Mr. Akinwumi,

Many thanks for
your message.

From previous cases
and from the note you sent to our attention, we have notice that the vessel AMS
Titan already has a Provisional Patent since it has been identified with number
31195-PEXT-1 The PEXT number indicates that the "Autoridad Marítima de
Panamá" (AMP) - Panama Maritime Authority - has issued the Provisional Patent
for said vessel.

Since the letter
you sent to us is dated 8th August 2007, our recommendation is to
conduct a complete search at the AMP in order to clarify the status of the
vessel. Our fees for this search are USD \$150.00 payable in advance. Once
payment has been received, we will send you the results of the investigation
within 24 hours.

Once the investigation has been completed and we know the actual registration status of the vessel, we will be able to send you a detailed quotation with respect to the obtainment of a patent, if need it. If the Provisional Patent obtained on 2007 has expired, we will need to solicit another one and to pay the correspondent fines.

We shall await your comments.

In case you have any questions, I remain at your disposal.
